MARQUIS/MAYO CLINIC CONNECTION

Marquis Jet Card owners, who get short-term, low-commitment access to NetJets aircraft via an easy-to-use card, are now included in an exclusive Mayo Clinic Executive Travel Response program that offers medical support from the Mayo Clinic while travelers are on a NetJets

aircraft or at their destination anywhere in the world, 24 hours a day." By NetJets extending these extraordinary benefits to Marquis Jet Card Owners we have created another example of our ability to provide our owners with the best service in the world," said Bill Allard, president and chief executive officer of Marquis Jet.
