## MERRILL LYNCH/ MARQUIS PERKS

Merrill Lynch clients who are interested in maximizing their private jet travel now have an opportunity to fly on the **NetJets** fleet via the **Marquis Jet Card** (Marquis Jet offers a short-term private jet card that provides 25 hours of flight time on the NetJets fleet). Merrill Lynch clients who purchase a 25-hour Marquis Jet Card (using their Merrill Lynch Visa Signature or their MERRILL+ card for purchase, or by using their Merrill Lynch points for private jet travel) get the added bonus of an additional flight hour or a complimentary one-way aircraft upgrade, along with other special benefits.

In addition, clients who express an interest in the program can book one-way or roundtrip flights with Marquis Jet—a “try before you buy” service—one time prior to buying their Marquis Jet Card. Marquis Jet Card prices begin at \$109,900 and vary by aircraft type.
