MARQUIS JET

With the Marquis Private Jet Card you have access the NetJets fleet of private aircraft - 25 hours at a time for one simple payment. The program is structured as a single-year, pre-paid lease of a fractional interest in a specific aircraft, in 25-hour increments of "occupied hourly" flight time for a one-time comprehensive payment with no further financial obligations.

Among the most appealing factors of the card is the efficient service. Offering guaranteed on-call availability of aircraft 24 hours a day, 365 days a year, clientele can call to reserve an aircraft with as little as ten hours' notice. Flexibility is another desirable factor. Marquis clients can elect to interchange or substitute his or her contracted aircraft for either a larger or smaller aircraft, based on established interchange ratios that calculate the occupied flight hours. Or clients can acquire interest in more than one aircraft type.

Once aboard the aircraft, passengers can relax in comfort. Each aircraft is outfitted with leather seats, compact discs, air phones, catered food, and a full bar. Some have monitors and DVDs, and large cabin jets, such as the Falcon 2000 and Gulfstream IV, include a flight attendant and hot food. Personalized service extends on land through a 24-hour concierge service that handles all requests from ground transportation and hotel reservations to theater or sporting event tickets.
