ATTENTION GLOBE-TROTTERS EVERYWHERE: Aren't you sick of hassling through security with your shoes off only to be greeted at the gate by a delayed flight? Flying commercial is so yesterday. Today's on-the-go entrepreneurs (and owners of multiple homes for that matter) need quick and reliable transportation—something that doesn't leave them sans shoes or stranded. Marquis Jet, a mover and shaker in the private aviation world, fills that niche nicely with its 25-hour Marquis Jet Card (starting at \$109,900). Members just request their flight and specific aircraft 10 hours in advance, and voilà, the travelers are whisked away to wherever they please. And don't worry about being left high and dry in terms of destinations—the sky is the limit for card holders with thousands of eligible airports available in the United States alone. Kiss getting grounded goodbye! 866.538.1400; www.marquisjet.com
